

Task	Instructions	Rationale
Register and login	None should be needed	This is the only way to access the app.
Make friends	Issue a friend request (Proctor provides username) Accept a friend request (Proctor provides username) Chat with the friend	This is the main way to connect to other users
Start a challenge	Create a challenge Invite users to the challenge Open the challenge	Challenges are the main feature of the app; they must be created by users.
Participate in a challenge	Accept a challenge invitation (Proctor provides challenge name) Request verification for completing part of a challenge	This is the main way users interact with challenges.
Verify a challenge	Verify a verification request	This is the other main way to interact with challenges and users on the app
Start a group	Create a group Invite a friend to the group	This is a way to reach more people in the app without directly friending them
